

Uniserve
for Cancer

2026

GALA
LUNCHEON

Sunday 9 August 2026 | Le Montage Sydney

Sponsorship Proposal

At Uniserve for Cancer, we believe that no-one should face cancer alone.

Uniserve for Cancer is a NSW based not for profit registered charity established in 2021 and recognised as a Deductible Gift Recipient in Australia.

Our mission is to provide essential financial support to individuals with cancer, alleviating hardship associated with treatment, testing or lost income.

Since its inception, Uniserve for Cancer has hosted successful fundraising events—including Annual Gala Luncheons in 2023, 2024 and 2025, all raising critical funds to support those impacted by cancer.

Event Overview

The 2026 Gala Luncheon will be held on a Sunday afternoon to include as many patrons as possible. Children all welcome.

We urgently need corporate partners and sponsors to support our 2026 Annual Gala Luncheon — so together, we can reach more people and give more to those who need it most.

Date:

Sunday 9 August 2026

Venue:

Le Montage Lilyfield NSW

An elegant waterfront setting consistent with previous gala luncheons.

Program Highlights

- Four course gourmet meal coupled with beverages
- Live entertainment with talented vocalist Sara Mazell
- Inspiring speakers sharing stories of Uniserve's impact
- Fundraising activities such as raffle and live auction
- Opportunity to connect with like minded patrons committed to cancer support

Mission Impact

A cancer diagnosis doesn't just affect someone's health — it impacts the financial well-being of their entire family. Transportation to appointments, time off work, childcare during treatments, prescription costs — these burdens can be overwhelming.

Your contribution can help families focus on what matters most: healing and spending precious time together.

You'll join a cause dedicated to relieving the financial burden faced by cancer patients — such as urgent molecular testing or bridging care costs not covered by public systems.

Uniserve has enabled life-enhancing support for individuals who otherwise could face severe delays in treatment access impacting their prognosis.

“I would like to express my gratitude to Uniserve for Cancer, a charity organisation that provides assistance for my patients with cancer and their families navigating complex financial challenges associated with their diagnosis and treatment.”

*- Dr Jenny Liu, Oncologist,
The Kinghorn Cancer Centre*

Intended Use of Funds

Sponsorship contributions and fundraising proceeds will directly support:

Urgent medical care for patients who cannot wait for public treatment slots.

Diagnostic testing support not covered by public systems. (e.g. molecular profiling for trial eligibility)

Financial relief for living expenses during treatment. (e.g. transport to appointments, medical equipment costs)

Expansion of support services to rural, regional and disadvantaged communities.

Support cancer research facilities and care support programs.

Why Partner with Uniserve For Cancer?

Together, we are not just treating cancer — we are defeating it, one patient, one family, one breakthrough at a time.

“always be positive, don’t lose hope and don’t be ashamed to ask others for help, because there are people ready to help you”

- *Cinzia, Uniserve For Cancer beneficiary & cancer survivor*

Cancer-related financial stress can cause many problems and often arises from high out-of-pocket costs combined with being unable to work and having already depleted all savings. Many people are reluctant to ask for financial assistance and suffer in silence. We aim to make it easier for them to receive support.

We value the importance of life-saving research and care support for cancer patients. So, we also support and donate to facilities and support programs that make a difference to the lives of those we assist.

“Thank you, Uniserve, for generously supporting programs that make a lasting difference in the lives of children with cancer and their families.”

- *Christina Yuen, Sydney Children’s Hospitals Foundation (SCHF)*

Credibility & Recognition

- Registered as a charity with the ACNC in 2022
- Charity no. CFN/26214
- ABN 48 650 134 768
- Holds full DGR status
- Responsible corporate and community governance, annual events with growing visibility and media presence
- The fund pool for beneficiaries is based on 70% of net profit each year

2025 Giving

Presented to St Vincent's Curran Foundation to purchase additional vital signs monitors for the The Kinghorn Cancer Centre at St Vincent's Hospital, Sydney.

The Kinghorn Cancer Centre is a major centre in Australia focused on the translation of research breakthroughs into novel diagnostic, prognostic, treatment and prevention options for a number of key National Health Priority cancers including: breast, prostate, GI (pancreas and colorectal) and non-Hodgkins lymphoma.

Bringing together researchers and clinicians onto a single site, The Kinghorn Cancer Centre fosters laboratory research directly driven by clinical challenges with the prospect of improving cancer outcomes for all Australians.

The vital signs machines we helped purchase for the chemotherapy suite aren't just equipment—they're lifelines. They allow safe patient monitoring during treatment, catching any concerning changes immediately and ensuring each person receives the safest possible care. When a patient sits in that chair receiving chemotherapy, our support is literally helping keep them safe.

2025 Giving

Presented to the Back On Track program run by Sydney Children's Hospitals Foundation (SCHF).

This program is an initiative that helps children and young people diagnosed with cancer continue their education and stay socially connected to their peers during treatment.

A standout feature of Back on Track is its holistic approach, supporting students from Kindergarten to Year 12 in various educational settings, spanning urban, suburban, rural, and remote areas of NSW and ACT.

**SCHF BACK ON TRACK
PROGRAM RECEIVED**

\$10,000

“Whilst treatment secures life, without support to achieve full potential, the significance and purpose of a child’s life is eroded or lost.”

- Dr Luciano Dalla Pozza, Head of The Cancer Centre for Children at The Children’s Hospital at Westmead.

2025 Giving

Combined value of support for individual patients for their care needs including:

- access to expensive targeted therapy drugs for patients with no financial means to self-fund
- funding early-phase clinical trial slots to improve survival chances of patients with rare or non-responsive cancers.

Every person that receives cutting edge clinical trial treatment not only increases their own chance for improved health outcomes but also helps pave the way to transform the standards of future cancer care for all Australians.

COMBINED VALUE
OF SUPPORT FOR
INDIVIDUAL PATIENTS

\$17,000
